#1/Special  
Condition

The defendant must provide the U.S. Probation Office advance notification of any computer(s), automated service(s), or connected device(s) that will be used during the term of supervision. The U.S. Probation Office is authorized to install any application as necessary to surveill all activity on computer(s) or connected device(s) owned or operated by the defendant. The U.S. Probation Office shall be notified via electronic transmission of impermissible/suspicious activity or communications occurring on such computer or connected device, consistent with the computer monitoring policy in effect by the probation office. As triggered by impermissible/suspicious activity, the defendant shall consent to and cooperate with unannounced examinations of any computer equipment owned or used by the defendant. This examination shall include but is not limited to retrieval and copying of all data from the computer(s), connected device(s), storage media, and any internal or external peripherals, and may involve removal of such equipment for the purpose of conducting a more thorough inspection.

**Details:** On December 3, 2015, officers from U.S. Probation Office observed Petix accessing a laptop computer with an inserted thumb drive and in possession of a smart phone capable of connecting to the Internet. A search was conducted of the vehicle that the offender drove and five thumb drives were found in his bag. All of these devices were seized by the U.S. Probation Office. The offender refused to cooperate and failed to provide passwords for these devices so we could conduct an examination of the devices.

The offender failed to provide this officer with notification that he had access to a laptop computer, a smart phone, and thumb drives. In addition, on October 20, 2015, the offender completed a Computer/Internet Data Form which instructed him to list all internet connected devices that he has access to. In this form, the offender noted, "I don't use a computer."

**The seized devices will be examined and depending upon the findings, an amended violation petition may be submitted.**

In summary, the offender denied to officers of the U.S. Probation Office that he owned and had access to a smart phone and a laptop computer, whereas in truth, the offender owned and had access to the smart phone and laptop computer.
